T32 Oncogenic Signals and Chromosome Biology Retreat

June 25, 2018
10:00 am – 2:00 pm
UC Davis Alumni Center, Alpha Gamma Rho Room

Program Schedule

10:00 – 11:00  Keynote Speaker
Ingrid Wertz, M.D. Ph.D.
Depts. of Molecular Oncology & Early Discovery Biochemistry
Genentech, Inc.
South San Francisco
"Targeting USP7"

11:00 – 11:20  Joshua Meckler, Ph.D.
T32 Fellow, Tuscano Lab, Department of Internal Medicine
"Telomerase: A cancer cell's lifeline and its potential Achilles heel"

11:20 – 11:40  Coffee Break

11:40 – 12:15  Luis Carvajal-Carmona, Ph.D.
Professor, Dept. of Biological Chemistry & Molecular Medicine
"An update on the genetics and genomics of gastric cancer and the role of homologous recombination repair deficiency in disease etiology"

12:15 – 1:00  Workshop led by Dr. Wertz
"Basic science and translational research in industry"

1:00 – 2:00  Lunch
